

AcuHawk

Pan, Tilt, Zoom Camera

SPECIFICATIONS

The AcuHawk camera is Acura Embedded System's premium video recording device. It features a functional dome shape to support 360° pan, tilt, and 23x optical zoom all controlled by remote inside a vehicle or at an EOC. This camera can be used in multiple different applications including HAZMAT monitoring, scene surveillance, on-scene accountability, and training.

The ruggedized outer shell of the AcuHawk means that it can be mounted outside of a vehicle 24/7/365 in any conditions whether night, day, or under unfavorable weather conditions. The AcuHawk is a necessary tool for those looking for a reliable mobile video recording solution.

Model	AV-6512
Housing	Outdoor Housing
Camera Dome	Armor Dome, Approval IP66
Resolution	480 TV Line resolution
Sensor	0.5 Lux (Color) / 0.01 Lux (B/W)
Zoom	23x Optical Zoom, 10x Electronic Zoom
Colour	Built in MOLPF switching Mechanism for increasing Sensitivity color and monochrome
